WELCOME TO 4LIFE®

More than 20 years ago, we came across the remarkable scientific finding of transfer factors. After experiencing the energizing immune system support of these information-packed molecules for ourselves, our passion grew, and we knew we would spend the rest of our lives sharing 4Life Transfer Factor® with others.* Today, with the help of our outstanding Research and Development team, along with input from our distinguished Health Sciences Advisory Board, our original product has developed into one of the most revolutionary immune system support ingredients available, 4Life Transfer Factor.* Our progress has solidified 4Life as the Immune System Company worldwide and served as the springboard for Transferceutical® Science.*

No matter your age, or where you're from, we have a Certified 4Life Transfer Factor product that's just right for you. We invite you to try 4Life Transfer Factor for yourself and feel the difference that immune education can have on your personal health.* Complemented by a wide range of additional supplements to meet your personal skin care, general wellness care, oral care, and even animal care needs, we are confident that 4Life products will make immune system and overall wellness support something you'll look forward to every day.*

Sincerely,

David and Bianca Lisonbee
4Life Founders

COUNT ON OUR QUALITY

4Life® pledges to uphold the highest standards of product design and manufacturing for every product we sell. We will always strive to create products of the utmost quality and efficacy.

In our million-dollar quality and testing lab, we test 4Life ingredients and products for identity, purity, strength, and composition. Depending on the product, we incorporate no fewer than 20 unique and critical quality tests before releasing the product into distribution.

And, we certify all 4Life Transfer Factor® products. When you purchase our products, you can rest assured that you're getting the very best.

SCIENCE AT ITS BEST

At 4Life, we've dedicated more than 20 years to researching and developing innovative 4Life Transfer Factor products—and our commitment has paid off. Transfer factors aren't simply nutrients; they provide knowledge to your body's immune system—supporting its natural ability to know what to do when challenged with health threats.*

Further advancing our position as a world leader in Transfereceutical Science, 4Life is set apart by our in-house Research and Development team, as well as the supporting expertise of a professional board of medical professionals, immunologists, nutritionists, and researchers, known as the Health Sciences Advisory Board (HSAB). Each of our scientific leaders is dedicated to the continued advancement of Transfereceutical Science because of the positive impact we continue to see in people's lives.

DID YOU KNOW?

4Life Transfer Factor®

DISCOVERY

- Dr. H. Sherwood Lawrence discovered transfer factor molecules in 1949.
- 4Life Founder and Chairman of the Board David Lisonbee learned about transfer factors as part of his on-going personal health research.
- 4Life secured patents (U.S.# 6,866,868 and U.S.# 7,815,943) that protect the process and use of transfer factors derived from colostrum ("first milk") and chicken egg yolks.

DESCRIPTION

- Transfer factors are tiny messenger molecules composed of amino acids (i.e., transfer factors are a unique category of bioactive peptide), that transfer immune memory from an experienced immune system "donor" to a less experienced recipient immune system.*

BENEFITS

- Transfer factors support the immune system's natural ability to recognize, respond to, and remember potential threats.*
- Transfer factors may boost or balance the immune system response to a potential threat.*
- 4Life® Transfer Factor Plus® Tri-Factor® Formula has been shown to increase Natural Killer (NK) cell activity by up to 437%.*†
- 4Life Transfer Factor Tri-Factor Formula promotes healthy T-cell and B-cell function.*

FORTIFY YOUR DEFENSES!

Results from an open-label, beta-test experiment showed that 4Life Transfer Factor® Tri-Factor® Formula effectively helped strengthen the immune system in **100%** of the people tested.*†

Increased Production of Salivary IgA Antibodies*

IgA Antibody (Immune Defender)
A critical first line of defense

Environmental stressor

BEFORE taking 4Life Transfer Factor

AFTER taking 4Life Transfer Factor
for four consecutive weeks*

**73%
MORE!**

Immunoglobulin A (IgA) test results obtained from a preliminary, in-house, open-label pilot study on 21 reportedly healthy adults. Participants took 4Life Transfer Factor® Tri-Factor® Formula for two weeks, followed by 4Life Transfer Factor® RioVida® Tri-Factor® Formula. One hundred percent of participants saw an increase in the production rate of salivary secretory IgA by an average of 73% after taking 4Life Transfer Factor products for four weeks, when compared to the one-week baseline. A brief drop occurred at the transition between the two products. (Bennett RH: Salivary IgA in Healthy Adults is Increased by Dietary Transfer Factors: An open label, cross-over study. Unpublished findings.)
